“Passion, Innovation, Results”

Research

Research interests involve integrating phonetic perception methodologies with brain imaging technologies such as fMRI and MEG in order to investigate neuronal circuitry in multilinguals.

Education

B.A. Linguistics	University of California, Santa Cruz
B.S. Cognitive Science	University of California, Santa Cruz
A.S. Physics	San Diego Mesa College
A.S. Mathematics	San Diego Mesa College

Academic Research

Research Assistant

University of California, Santa Cruz
2013 to 2014
Cognitive Science Department
Coded acoustic data with Praat and video data with After Effects for a phonological study.

Research Assistant

University of California, Davis
Summer 2012
Center for Mind & Brain
Through an internship administered Stanford Binet Intelligence Tests, recruited families, coded data, and assisted with fMRI preparations.

Researcher

University of California, Santa Cruz
Spring 2012
Linguistics Department
Developed, implemented, and completed a controlled phonological study. Designed and prepared stimuli, scheduled and ran participants, as well as analyzed and reported data.

Honors

Dean's Scholarship, UCSC

Teaching Experience

Tutor / Mentor

Foothill College, Los Altos Hills
2011

Pass The Torch Program

Tutored and developed long term collaborations with students while coaching them on productive study habits and critical writing techniques.

Tutor

Foothill College, Los Altos Hills
2011

Volunteer

When the English department closed the writing lab due to budget cuts, I collaborated with the English as a Second Language Club in order to provide free tutoring services to ESL students. I functioned as the first tutor and helped implement the ESL Club writing assistance outreach program.

Tutor

Independent
2010 to 2011

Provided tutoring services to students and adults on academic subjects such as English, French, Algebra, and Calculus.

Professional Experience

Technical Assistant

Pfizer

Global Research & Development La Jolla, CA

Jan 2008 to Jun 2009

Performed health observations on a variety of species within the Comparative Medicine Department. Managed and updated the department website.

Animal Technician

The Scripps Research Institute

Immunology La Jolla, CA

Feb 2007 to Aug 2007

Examined and monitored health concerns. Learned malocclusion treatments, orbital bleeds, peritoneal injections, intra-cardiac punctures, and tumor measurements.
